

Lady Napkins 1st Quality

Our sanitary napkins are made of cellulose, the same raw material that is used to make paper. This material makes the napkins fleecy and very light, nevertheless, it still can absorb the wetness. The "crown" and the fluid tight safety cover is made of watertight synthetic such as Polypropylene or Polyethylene for optimal leakage protection. Due to the cotton material used our napkins are very light and amazing absorptive at the same time.

Experience the new generation of softness combined with maximal wearing comfort and protection.

Big with Wings

These sanitary napkins are extra long and strong with formfitting shaped wings for a perfect fit. Due to these characteristics the napkins provide maximum protection.

sizes 1 carton : 53 cm x 53 cm x 57 cm
weight one piece =7 g
weight 1 carton about 22-24 kg

(purple color Night with wings in photo) green/pink
